

Zoe McFife

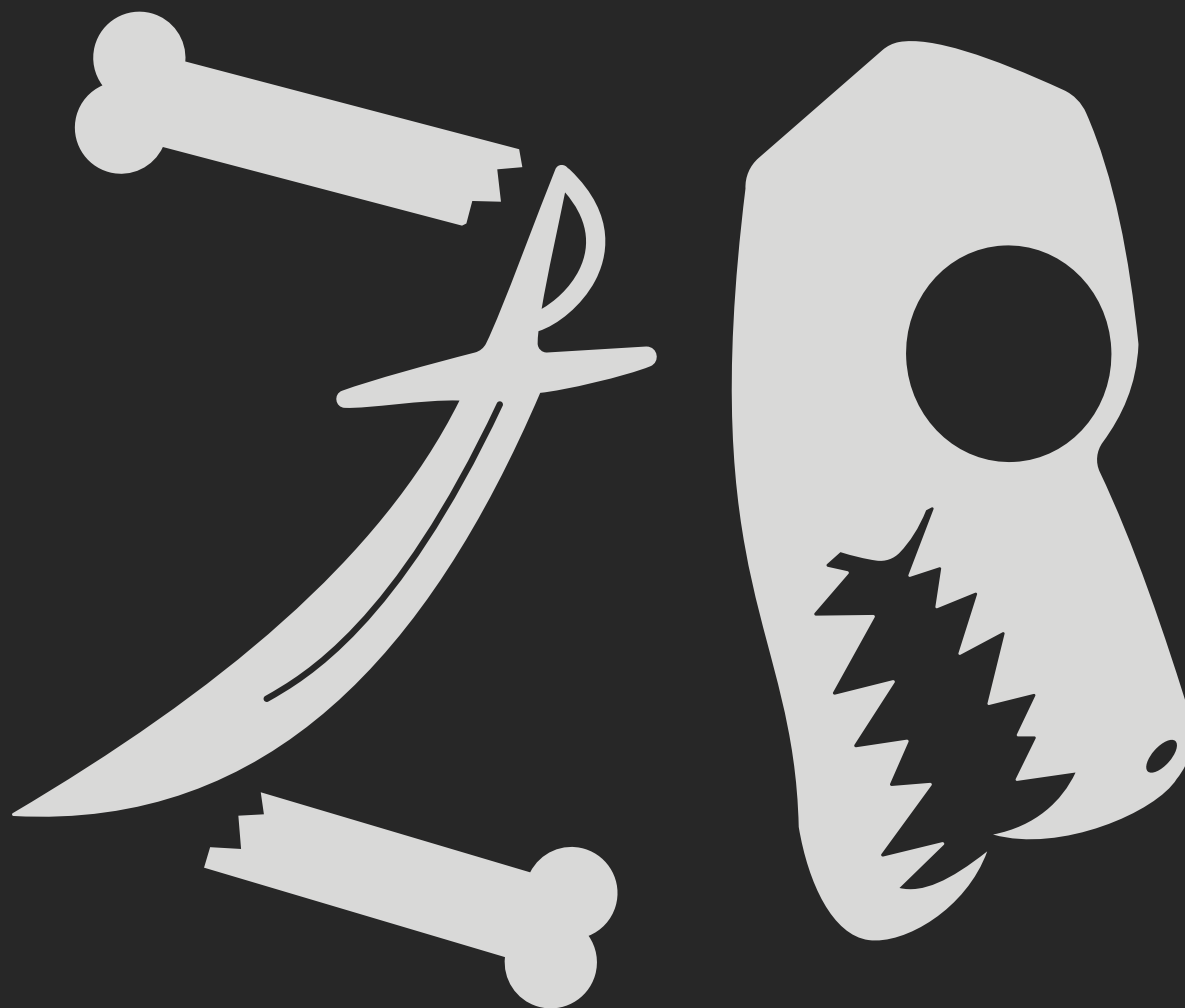

Design Guidelines

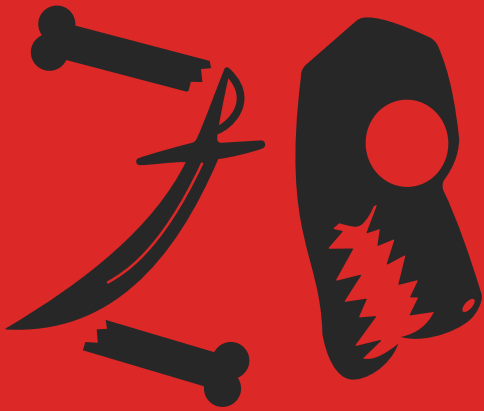

Short Version

1

Logo

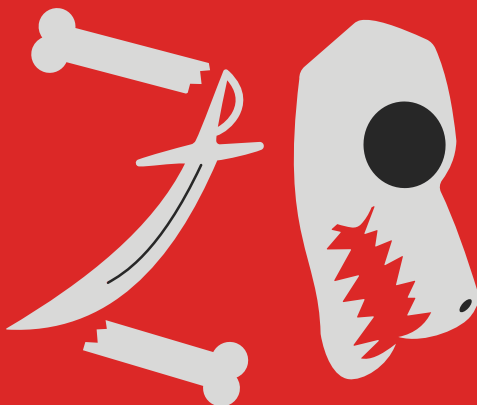

Black

White

Accent

Logo

The logo consists of a cutlass cutting through a bone and a skull of a fox. It's inspired by the Pirates of Fife Jolly Roger but this design is slightly simpler and also has the **Z** from **Zoe** in it!

The white version should primarily be used on a Gunpowder Gray or Blood Red background. It should feel like a typical black or red flag, like used in piracy.

The version below is a special case of the logo being used on other accent colors.
