... and so on.

TAKEAWAYS

Dimensionality of game space
refers to **how the world**
is built and rendered;
camera perspective defines
how it is **viewed**.

Questions?

Game Art as Environment.

Environment Art

The Witness

Environment Art

The Witness

The Witness

First Person Puzzle Exploration

- **Release date:** January 2016.
- **Budget:** approx. USD 6 million.
- approx. 650 puzzles
- **Complete playthrough:**
60 to 80 hours (approx. 100 with all hidden items)

The Witness | Thekla, Inc. | Thekla, Inc. | 2016

Team Structure

- **Total dev. time:** 7 years
- **Thekla Inc. (Jonathan Blow):** Game Design, engine, puzzle mechanics, art direction.
- **Fletcher Studio:** landscape architecture, topography, materiality, biomes, spatial composition.
 - 3 years (2010–2013).
- **Fourm Design Studio:** support with architecture and modeling.

Environment Art

Environmental Basis

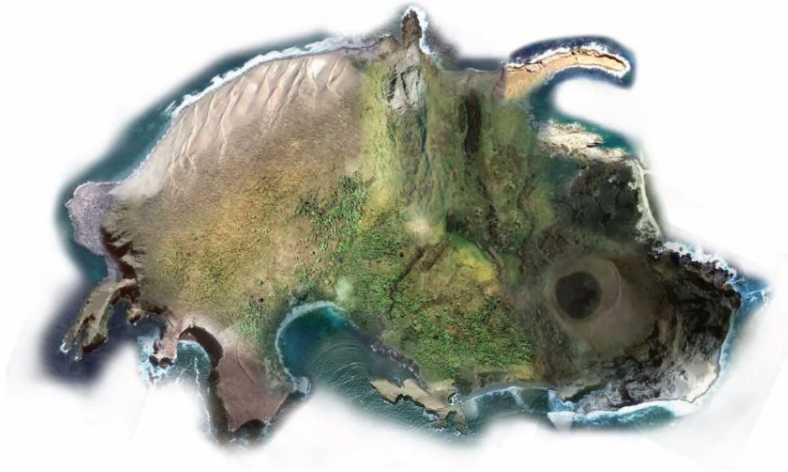

Figure 4: Aerial collage and early geology and landscape studies (Fletcher Studio, 2011).

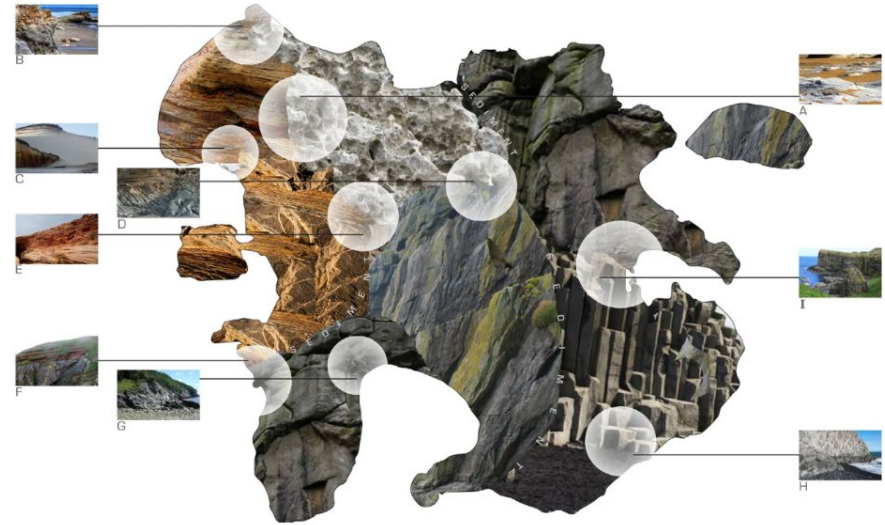

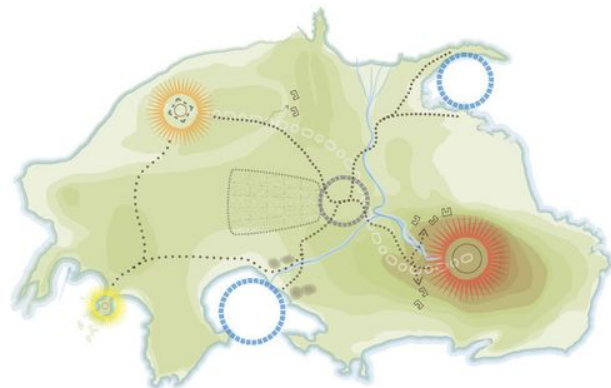

Figure 5: Geology. (Fletcher Studio, 2011).

Environment Art

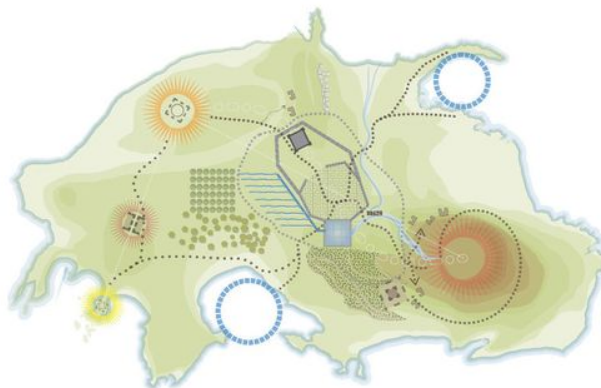

Worldbuilding

CIVILIZATION 1

Though little evidence remains, there appears to have been a technologically primitive yet complex society founded upon the worship of ancestral and geographical deities on the island. Evidence of a settlement is found at the watercourse divergence at the center of the island. There is also evidence of an adjacent grazing pasture for limited domesticated animals. Their primary source of

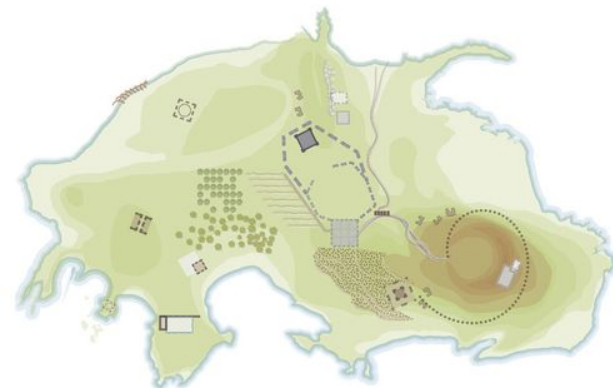

nutrition came from two highly productive fishing bays on either end of the island. The economic axis between these two bays lay perpendicular to a spiritual axis that lead from the volcanic crater to an aberrant lava rock on the other side of the island, both of which contain evidence of spiritual activities and numerous tomb sites.

CIVILIZATION 2

Later, the island's culture and technology development rapidly, through the introduction of new technologies and exposure to foreign intellectual societies, by way of naval maritime trade. The economic and substantive heart of the island moved inland where an elaborate water management system came to reform the land with dams, reservoirs, irrigation channels, and agricultural terraces.

The primary settlement transformed into a feudal state with a walled town and keep that oversaw the society. The focus of the islanders' spiritual practices transitioned towards a management of life giving resources such as water, and as gatekeeper to the mystic powers of the volcano.

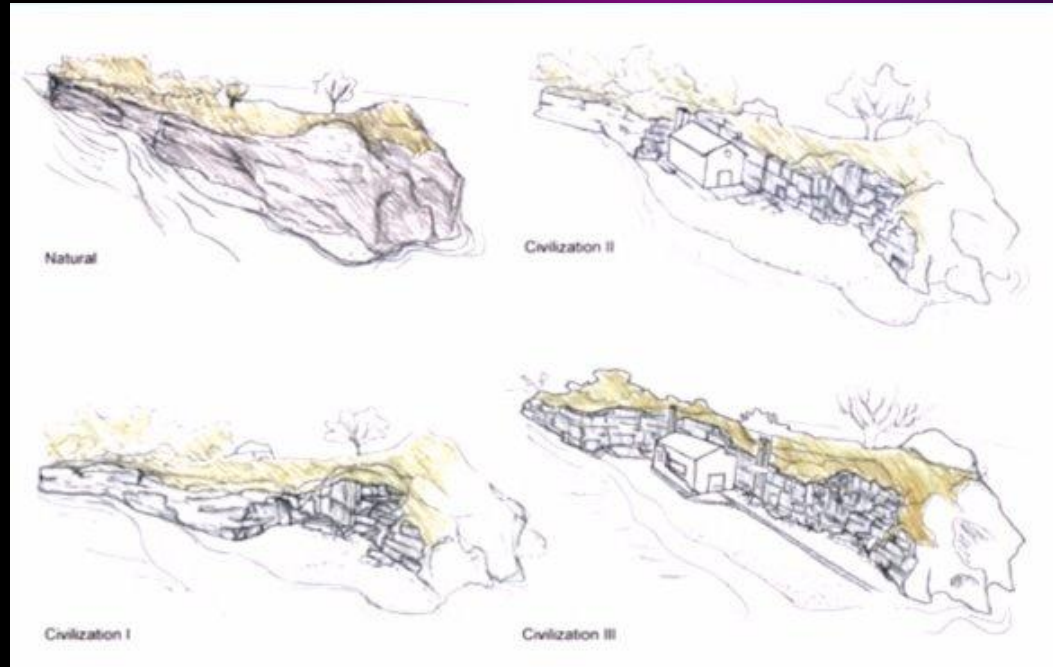

CIVILIZATION 3

The current state of the island speaks to a destruction event which lead to the abandonment of the previous civilization and a recent reoccupation of the island by a much smaller, modern population that brought with them a high technological sophistication. Many of the surviving structures of the previous civilization lie in ruin though have been reappropriated by contemporary inhabitants

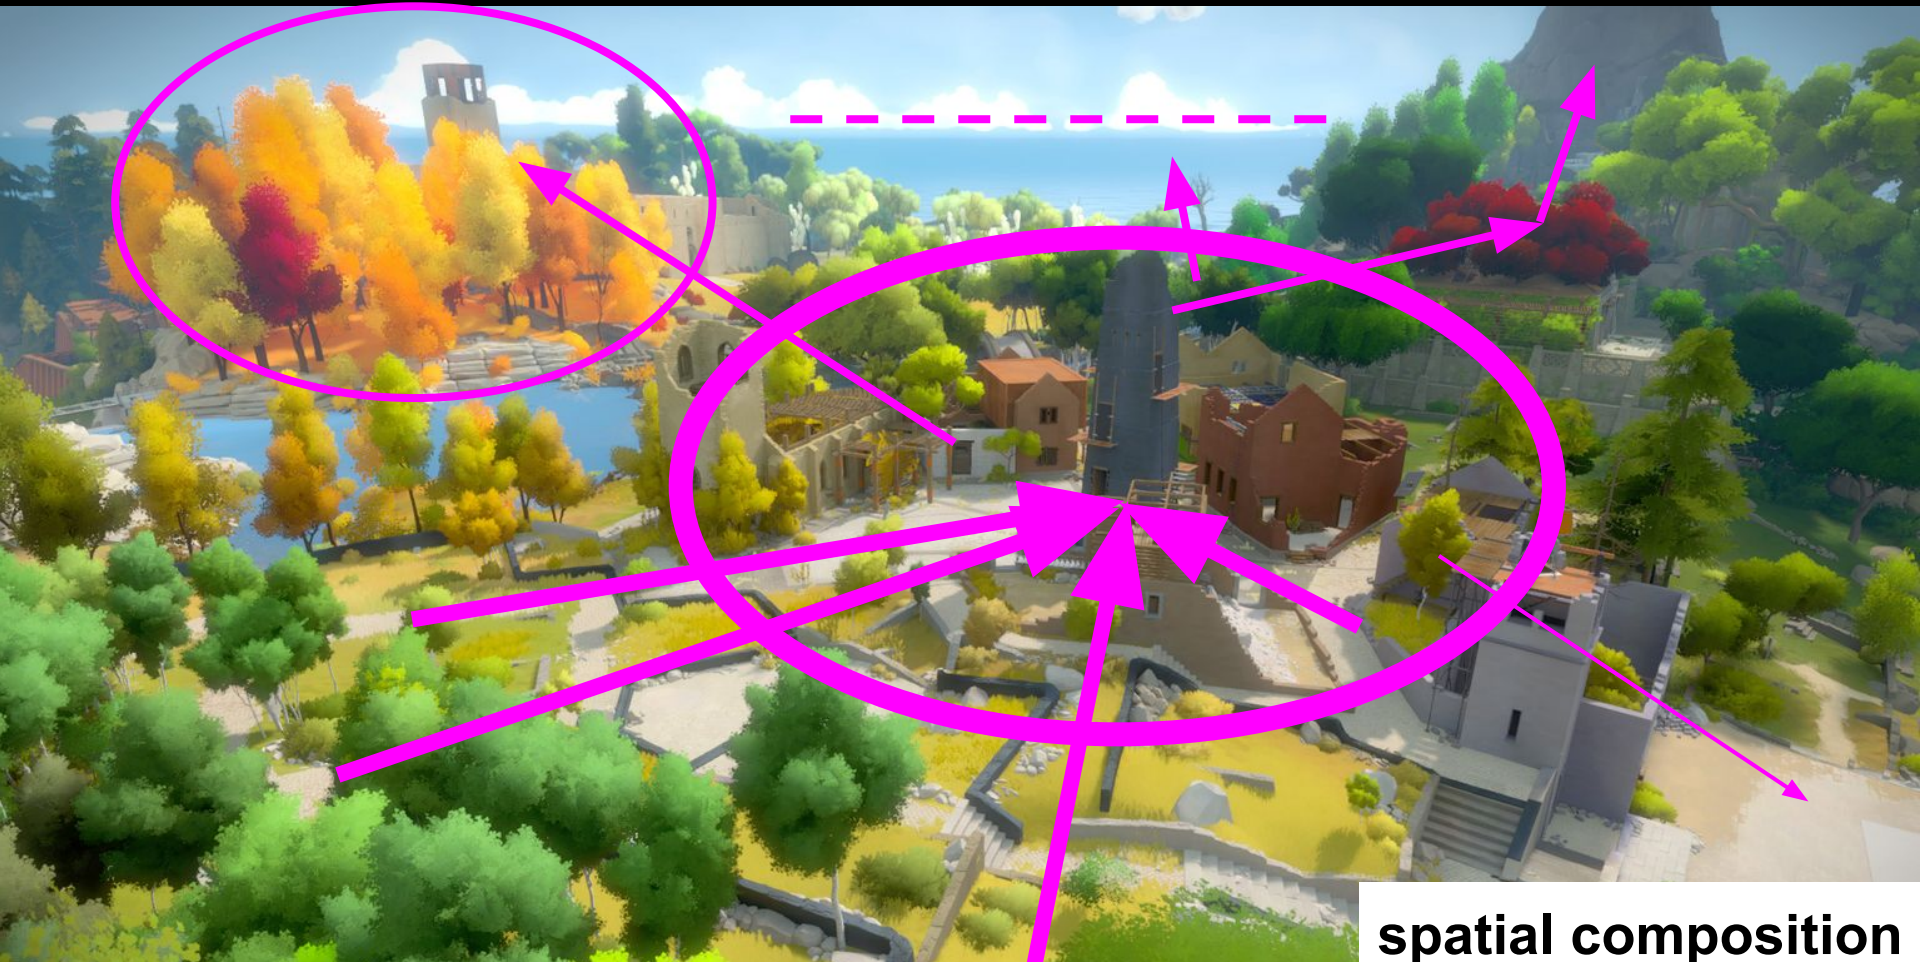

who have grafted new constructs onto these remnants. Recent uses include a factory for the production of high quality goods as well as a scientific observatory on the rim of the volcanic crater. A lone house has been constructed on a bluff that seems to have been the primary residence of an important actor on the island who oversaw much of its recent development.

Environment Art

Worldbuilding

color and light composition

materials & textures

TAKEAWAYS

Environment Art enables the creation of coherent worlds that **communicate purpose** — without needing words.

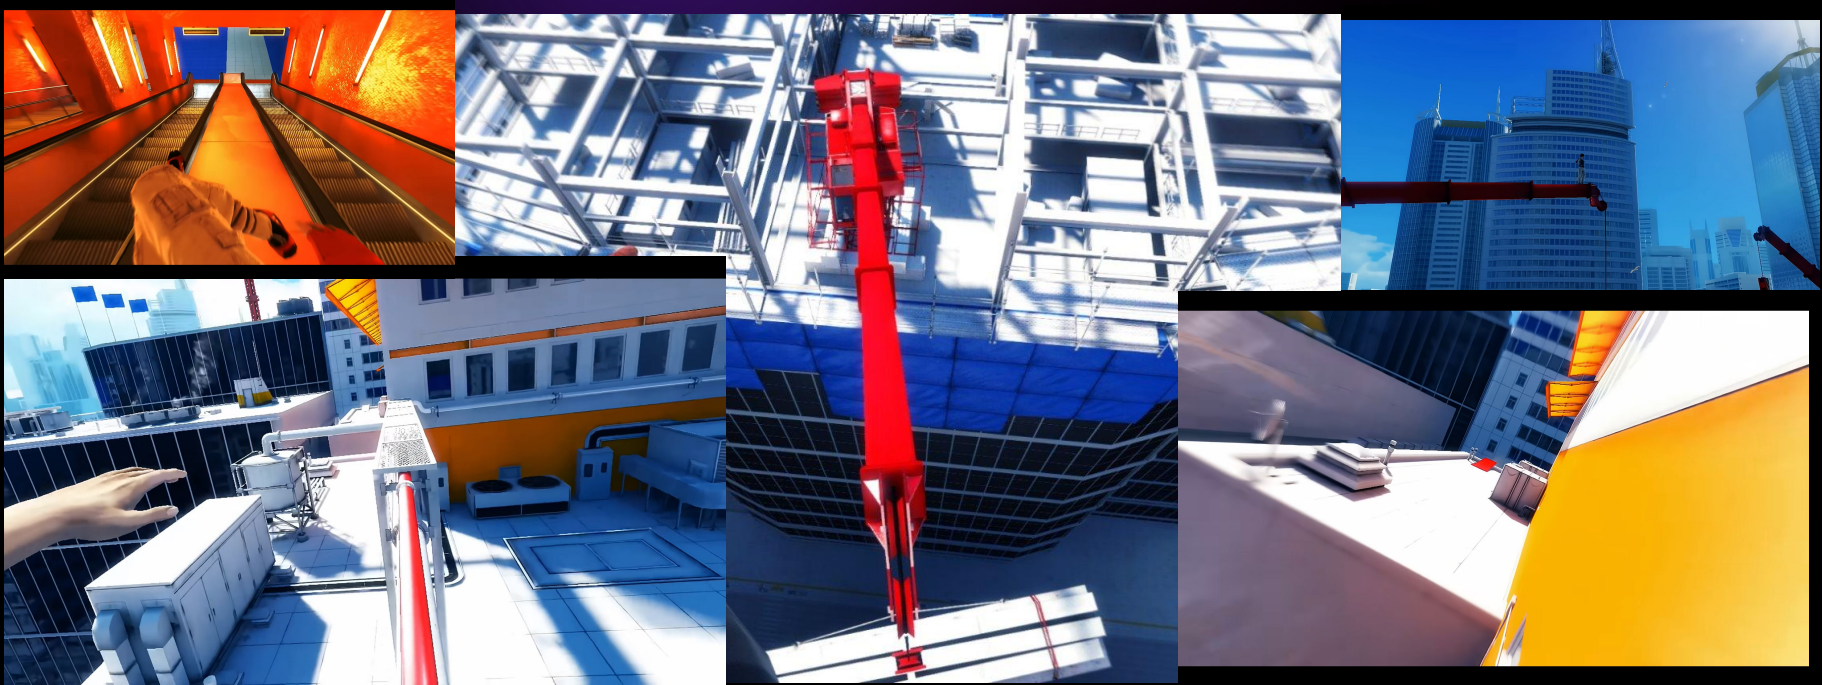

Questions?

Game Art as Orientation.

Visual Communication

Visual Communication

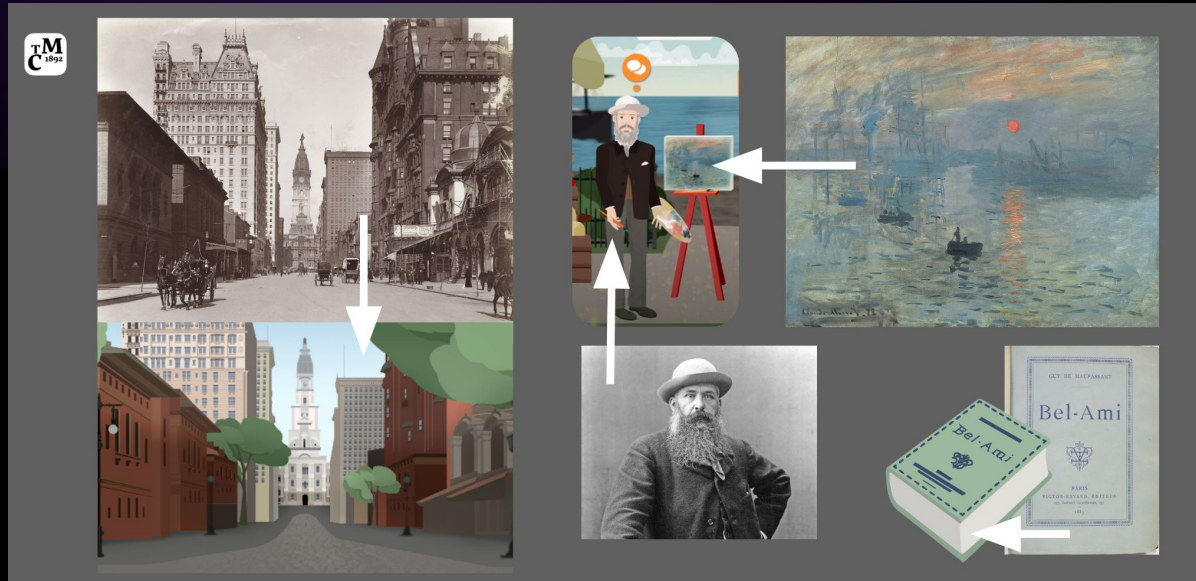

Building Vocabulary

Readability Tips

- ☐ **Consistency first**
(Same form = same function)
- ☐ **Contrast**
(Interactive objects must be clearly distinguishable from decor)
- ☐ **Hierarchy**
(Visually prioritize important affordances)
- ☐ **Reinforce through feedback**
(When the player acts correctly, confirm it (ex. sound))
- ☐ **Seed recognition early**
(Show central forms early so that it can be recognized later)

RECAP

ONLINE-JUBILÄUMSTAGUNG »SPIELKULTUREN« 28.11. – 29.11.2025

SPIELKULTUREN

TAGUNGSPROGRAMM

Stand 06.10.2025

Donnerstag (27.11.2025)

Pre-Conference Dinner: Brauhaus in Köln ([Vor Anmeldung erforderlich](#))
Alternative: Online-Treffen @gather.town

Freitag (28.11.2025)

09:00 – 09:30 *Begrüßung und Eröffnungsrede*

09:30 – 11:00 Session 1: Entwicklungskulturen Mühleder + Naether, Bumann + Roggenkamp + Lotzow, Cyrcel + Krois

11:00 – 12:30 Session 2: Metadiskurse Ney + Schwarze, Potthast, Weixelbraun + Göbl

12:30 – 13:30 *Mittagspause*

13:30 – 14:30 Kurzformate: Micro-Talks I Konkel, Hinrichs, Gröblichhoff, Kind, Vettermann

14:30 – 16:00 Session 3: Rezeptions- und Vermittlungskulturen Hamm + Podrez, Hinzen + Schulze, Betzing

16:00 – 16:30 *Kaffeepause*

16:30 – 18:00 Session 4: Roundtable: Gaming und Rechtsextremismus Brandenburg + Schlegel + Unterhuber + Winkler

ab 20:00 *Social: Streaming* mit Andreas Moitzi

Samstag (29.11.2025)

09:00 – 10:30 Session 5: Methoden und Ansätze Bischof, Huber, Hohjahn

10:30 – 12:00 Session 6: Forschungskulturen Ascher, Clüver + Kanderske + Schemer-Reinhard, Sturm + Klausner + Bauer

12:00 – 13:00 *Mittagspause*

13:00 – 14:00 Kurzformate: Micro-Talks II Günther, Brandis, Puchelt, Sommer, Bicker + Kuch

14:00 – 15:30 Session 7: Kultur in Spielen Froschauer, Drobe, Prager

15:30 – 17:30 Session 8: Roundtable: Gespieltes Mittelalter Hermann + Santner + Darda + Marquardt + Kirchberger

17:30 – 18:00 *Abschluss*

ab 20:00 *Social: Gaming Night* @gather.town

UE 6

Task: Create a platformer level in Construct (Each team builds one level).

Theme: "Tough but fair." / "Hart aber fair"

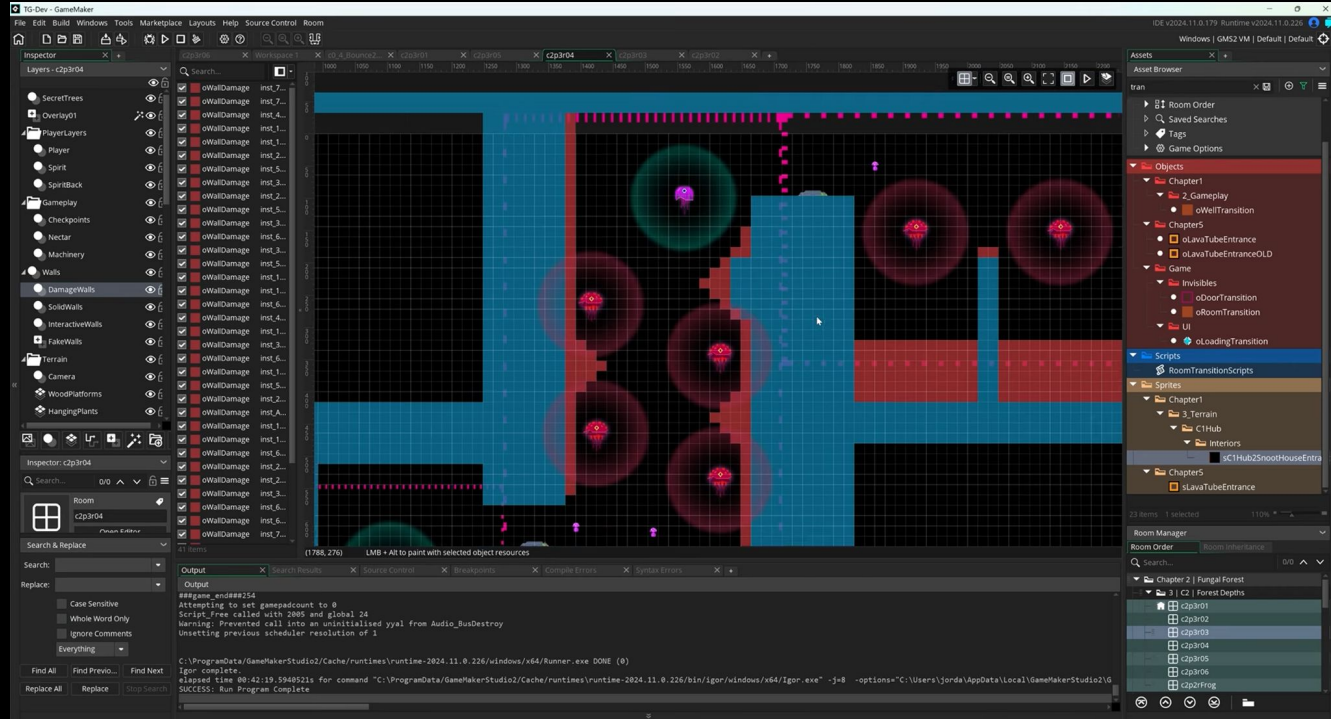

Upload: Expand Wiki page with information about the Game Art (Iteration 2).

Testable Version: Playtesting Session with Wolfgang November 20, 2025

Deadline for submissions: January 15, 2026

<https://hagenberg.games/wiki/>

<https://editor.construct.net/>

<https://www.youtube.com/watch?v=lcZW-4nrN9I>

How we design 2D platforming levels that are actually fun | Devlog #30 by O. and Co. Games

<https://www.youtube.com/watch?v=lcZW-4nrN9I> Min 3:30

How we design 2D platforming levels that are actually fun | Devlog #30 by O. and Co. Games

UE 6

Today: Design game art for your platformer from the level design exercise.

What: Character + Environment. (Everything that was blocked is replaced with their own assets.)

Focus: Pre-Production + Main Character

UE 6

Exercise 1: Pre-Production: Ideation / Moodboard (ca. 30 Min)

Should include:

- Main Theme (if not already done)
- Pixel Art? Hand-drawn? Vector-based?
- Color Palette
- Character
- Environment
- Vibe

Moodboard

Level Design Book: example moodboard (screenshots from Hitman), blockout, and art pass for an "Italian Villa" project by Stavaas (via Polycount)

Concept Art / Game Art

Concept Art for Anno 1800 (2019) by Karakter Studio

Anno 1800 | Ubisoft Blue Byte | Ubisoft | 2019

UE 6

Exercise 2: Character Design (ca. 45 Min)

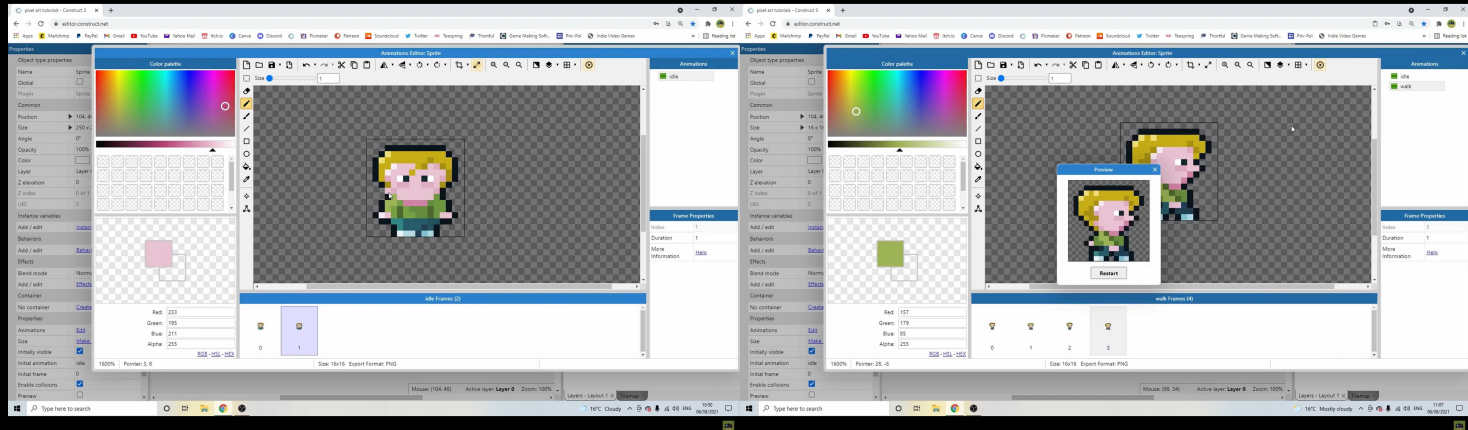

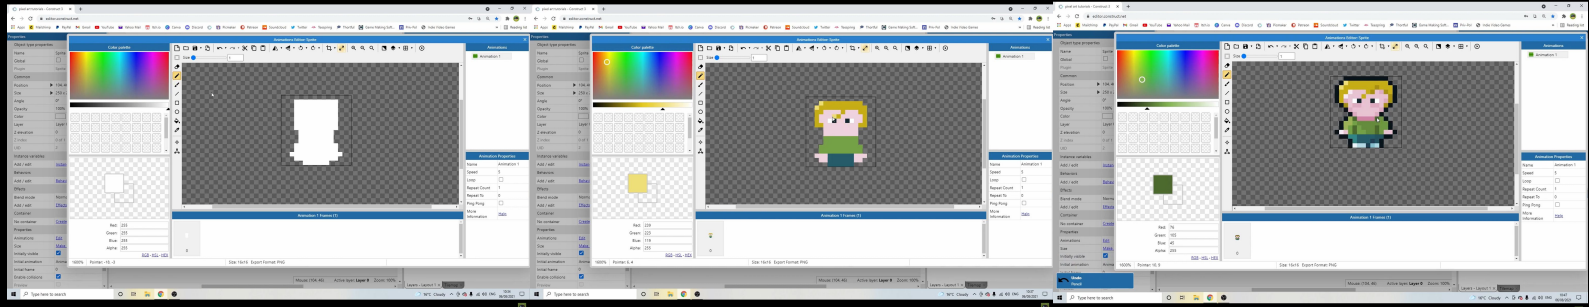

Design your Main Character

- Idle Animation
- Walking Cycle

If ready: Start with Environment Art

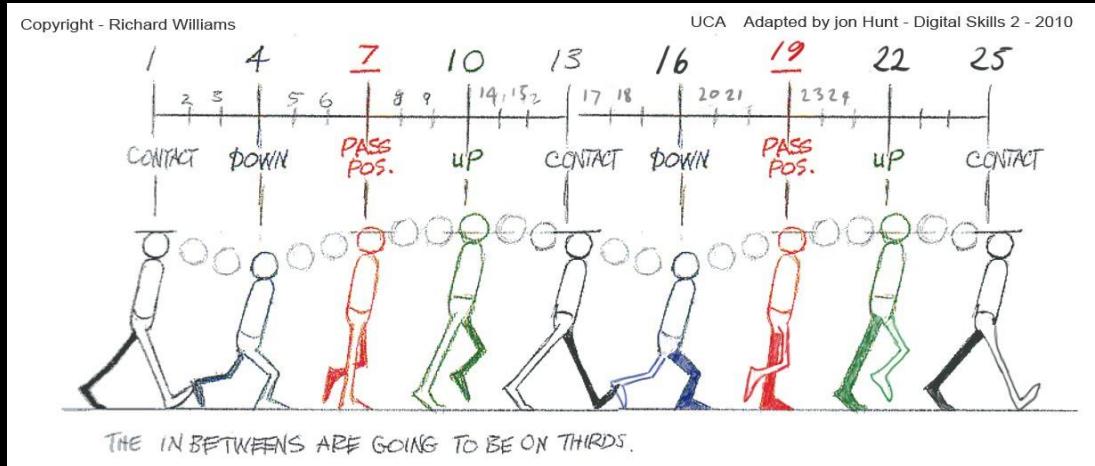

Tips for Character Design:

- Narrative that drives your design
- Backstory
- Personality
- Character Anatomy
 - gender; age; ethnicity; body shape
- Proportion and shape
- Exaggeration
- Expressions
- Distinct silhouette
- Challenge stereotypes
