

The following assignments all result into SQL statements (possibly more than one per assignment). In your final submission please provide a .sql file with all the assignments you completed, in the following format:

```
1  -- 01:
2  SELECT * FROM Customers;
```

e.g. please make sure to have a **comment** with the **assignment number** and below that the SQL statement(s) for the respective assignment.

Table 1: Games.csv

name	developer	genre	achievements	releasedate	score
Celeste	Maddy Makes Games	Platformer	23	2018-01-25	94.0
Hades	Supergiant Games	Roguelite	49	2020-09-17	93.0
Stardew Valley	ConcernedApe	Simulation	43	2016-02-26	89.0
Neon White 2	Angel Matrix	Action		2099-06-16	
Disco Elysium	ZA/UM	RPG	35	2019-10-15	97.0
Silksong	Team Cherry	Metroidvania			

Table 2: Publishers.csv

name	country	founded
Devolver Digital	United States	2009
Supergiant Games	United States	2009
ConcernedApe	United States	2012
Annapurna Interactive	United States	2016
THQ Nordic	Austria	2011
Raw Fury	Sweden	2015

Exercise 1 (1 point) Create a new database *Games_YOURNAME* and connect to it.

Exercise 2 (3 points) Create a new table *Games* with the following properties:

- Select an appropriate *datatype* for each column in the csv.
- Define a synthetic *primary key* that should *auto increment*
- The *name* of the game must *not* be *null*.
- The *score* should be between *0-100 with only one decimal*
- The combination of a games *name* and *genre* must be *unique*.

Exercise 3 (1 point) Insert the games from games.csv with an insert statement.

Exercise 4 (2 points) Create a new table *Publisher* and insert the publishers from publishers.csv:

- The *name* should be the *primary key*.
- The *founded* date must *not* be *null*.

Exercise 5 (1 point) Insert the publishers from publishers.csv with an insert statement.

Exercise 6 (2 points) Alter the *Games* table to add publisher as a new column that is a foreign key

Exercise 7 (1 point) Update all games to have a publisher in your table

Exercise 8 (1 point) Add a released column to Games defaulting to true.

Exercise 9 (2 points) Modify Games entries to have set "released" to false for all dates in the future or where no released date exists in one query.

Exercise 10 (1 point) Delete Annapurna Interactive as publisher and all games they published.

Exercise 11 (1 point) Delete all publishers that have no associated games
